Bootstrap Modal Usage

<https://getbootstrap.com/docs/4.6/components/modal/#usage>

npm run watch – starts watcher, watcher runs our css and js tasks whenever files are changed.

To get to the custom JavaScript file

```
/src/js/custom-javascript.js
```

jQuery Wrapper for WordPress

```
(function($) {  
    $(document).ready(function($) {  
  
        });  
    })( jQuery );
```
