Media Query / Responsive breakpoints/Media Query Mixins

<https://getbootstrap.com/docs/4.6/layout/overview/#responsive-breakpoints>

Bootstrap List

<https://getbootstrap.com/docs/4.6/components/list-group/>

Bootstrap Components

<https://getbootstrap.com/docs/4.6/components/alerts/>

`/src/sass/theme/_child_theme.scss` – google fonts can be added here

`/src/sass/theme/_child_theme_variables.scss` – bootstrap variables are overridden here

`/src/sass/assets/bootstrap4/_variables.scss` – where you can view current bootstrap variables

`$spacer` – bootstrap variable that counts as one unit of space.
